Access only for members of the CPST

Océanography

Call for proposals involving the French National Deep-Sea Oceanographic Fleet

The Marion Dufresne is part of the French oceanographic fleet. As such, the campaign files must now be submitted to the National Deep-Sea Fleet Council (CNFH). Follow the link given below: you will find the details concerning the call for tenders involving offshore science vessels of the French oceanographic fleet (IPEV, Ifremer and IRD) and for ships from partner fleets.

This call for proposals concerns all the types of campaign “Scientific research”, “Technological research”, “Technological trials” and “Service of public interest”.

To send responses to the call for proposals please visit :
